WORK EXPERIENCE

Software Engineer I JP Morgan Chase & Co.

03/2021 - Present

- Working on the development & release of a **new revamped productivity tool** impacting over **350,000+** users using a micro-frontend architecture. Owned the **adoption** of the platform across several teams with **supporting documentation**.
- Lauded with "**Software Engineer of the Quarter**" award for "**Excellence in Delivery**" for communication & prompt issue resolution. **Automated builds** reducing time by a **factor of 40%**.

Student Collaborator CERN (via Google Summer of Code)

Achievements/Tasks

- Working on the **Rucio** project dealing with **Scientific Data Management**.

Freelance Technical Writer Digital Ocean

04/2022 - Present

- Writing & publishing technical articles and tutorials under the "**Write for DOnations**" program for non-profits.

Project Maintainer Creative Commons (via Google Season of Docs)

06/2020 - 03/2021

- Penned out a how-to guide to use the CC Vocabulary UI components. Designed and developed a **unified site leading to an integrated documentation** for each for Vocabulary, Vue-Vocabulary and Fonts.

PROJECTS

DocAid

- A **complete healthcare ecosystem** driven by the idea of simplifying the process of **registration and prescription generation**. Single-handedly produced, integrated & handled the **mobile application for the patient and the doctor**.

LostAndFoundry

- Developed a web application which was deployed to IBM Cloud services using CloudFoundry. The website aims to **apply technology for rescue operations** during a natural disaster.

EDUCATION
